Work Experience

Intern, April 2020-July 2020
Victorise - San Diego, CA
-Developed and debugged web application using Ionic, Node.js, MongoDB, Robo 3T, Github/Sourcetree, and AngularJS. Implemented new design and functionality, switching from Ionic view to AngularJS layout.
-Developed and debugged mobile application using React-Native, Xcode, and Github/SourceTree. Implemented functionality from AngularJS webapp into the React Native framework using Async/Await functionality to access MongoDB database.

Student, January 2020 - May 2020
Learn Academy - San Diego, CA
-Attended a 580 hour, 4 month, intensive bootcamp, covering topics/languages such as Ruby on Rails, React, Javascript, Github, HTML/CSS, SQL, and Jest.
-Developed web applications, practicing paired/mob programming, implementing responsive designs, utilizing both front and back end development.
-Examples of the applications developed can be found here: https://github.com/lizhavird

Manager of Photography, August 2015-March 2020
Buca Di Beppo - San Diego, CA
-Gained confidence in my ability to sell a product or idea, meeting or exceeding daily sales goals. I also gained a thick skin for rejection.
-Learned about oversight of employees, and inspiring our team members with the spirit of sales.
-Gained technical photography skills, as well as a familiarity with Photoshop.

Projects

PikaChoose
A React/Ruby on Rails application using RestAPI, which allows people stuck on the common modern day question, "What to watch?", to receive a randomly generated decision based upon what criteria the user enters.
http://pikamovie.herokuapp.com/

Mock Ecom Website
A React ecommerce application integrated with Shopify using async, await functionality.
https://liz-shopify-react.herokuapp.com/

Education

High School Graduate: La Jolla High School - June 2015
Member of Madrigals Choir and Varsity Cheerleading.
